

## PREPARATION FOR THE PMP® CERTIFICATION EXAM

### PM00.99

Increasingly, companies all over the world are recognizing the value that project management can provide to their performance. Project Management Professional (PMP)® certification has become the most recognized credential for the practice of the rapidly evolving profession of project management. This three-day, four-day or five-day *PMBOK® Guide* - aligned course prepares you for Project Management Professional (PMP)® certification examination and raises your project management skills to a more advanced level of performance.

Students in this class also receive **access to our online Test Bank** to take repeated quizzes and tests.

### PREREQUISITES

- Participants should be eligible to sit for the PMP® certification examination

### LEARNING OBJECTIVES

At the end of this class, participants will be prepared to:

- Apply an advanced knowledge of project management based on the *PMBOK® Guide*
- Recognize both the content and format of examination questions
- Identify weak areas that require more individual study
- Pass the Project Management Professional (PMP)® certification examination

### WHO SHOULD ATTEND

- Managers and project managers seeking PMP® certification
- Mid-career professionals who seek to further develop their project management skills

### COURSE OUTLINE

This course provides an overview of project management and covers the ten knowledge areas identified in the *PMBOK® Guide*:

- |                                  |                                     |
|----------------------------------|-------------------------------------|
| • Project Integration Management | • Project Human Resource Management |
| • Project Scope Management       | • Project Communications Management |
