

PROJECT MANAGEMENT PREPARATION FOR SUCCESS

PM00.00

Much of the work that you do can be organized as a project. The ability to successfully define and subsequently manage a project is quickly leaving the realm of the extraordinary and is becoming a core competency for many organizations. Managing a project is not easy and project management skills do not come naturally to many people. Fortunately, the skills associated with defining and managing a project can be learned. Understanding and practicing the concepts taught in this class increases the likelihood of success on the project.
